Nursing Scholarships

CHANCES Scholarship

The Children's CHANCES scholarship provides educational assistance for selected candidates.

Scholarship requirements:

- Applicant must be accepted into a Bachelor of Science in Nursing (B.S.N.) program.
- Selected applicants will receive \$5,000 per semester for up to two years (\$20,000 max) toward their educational needs.
- Upon graduation from nursing school, recipient will be committed to work as a registered nurse for Children's for 12 months for each academic year of support received.
- Candidate must be a U.S. citizen or otherwise authorized to work in the U.S.

OPPORTUNITIES Scholarship

The Children's OPPORTUNITIES scholarship provides educational assistance to bilingual students interested in pediatric nursing careers. The scholarship is open to students or individuals seeking a career change. Previous experience or education in nursing is not required.

Scholarship requirements:

- Applicant must be fluent in English and Spanish.
- Applicant must be accepted into a Bachelor of Science in Nursing (B.S.N.) program.
- Selected applicants will receive \$5,000 per semester for up to two years (\$20,000 max) toward their educational needs.
- Upon graduation from nursing school, recipient will be committed to work as a registered nurse for Children's for 12 months for each academic year of support received.
- Candidate must be a U.S. citizen or otherwise authorized to work in the U.S.

Application Process

Applicants are asked to provide:

- A completed application (which is available at www.choa.org/nursingscholarship)
- An essay about pediatric nursing (500 words or less)
- A verified minimum 3.0 GPA (official transcript)
- Two letters of recommendation
- A resume or work/volunteer history

You may be evaluated in a personal interview conducted by the Children's Scholarship Committee.

About Us

Nurses are the front line of patient care. That is why our nursing programs are structured to support the hearts, hands, minds and leadership of our nursing staff. Collectively, these words embody the spirit of nursing at Children's. Separately, each word recognizes a key component of what it truly means to be a nurse:

- **Hearts**—signifies the importance of our interpersonal relationships and the engagement of our nurses.
- **Hands**—represents the technical skills, clinical behaviors and protocols that bring quality care to patients' bedsides.
- **Minds**—symbolizes nurses' critical thinking skills, including advanced degrees, certifications and participation in process improvement councils, such as CHOICE.
- **Leadership**—recognizes the leader within every nurse and makes a commitment to foster the growth of leadership capabilities.

First Year Experience

- **Nurse Mentor Program**—is a year-long program that promotes professional development, enhances communication and builds relationships for new graduate nurses.
- **Floating Preceptor Program**—provides ongoing support by dedicated educators for nurses who have completed orientation and are taking their own patient assignments.
- **Nurse Resident Program**—a year-long program that focuses on the educational and emotional needs of new graduates as they transition into the role of pediatric nurses.
