## About The DAISY Awards

The family of Patrick Barnes created The DAISY Award For Extraordinary Nurses in his memory. They wanted a way to thank nurses for the gifts they give their patients and families every day and recognize the often “unsung heroes.”

Nurses at Children’s are nominated by their peers and managers for The DAISY Award in recognition of their commitment to the highest standards of nursing excellence and for making a significant difference in the lives of the patients and families they serve. The award also helps raise awareness about the important role nurses play in the treatment of critically ill patients. Nurses receive The DAISY Award for going above and beyond, working collaboratively with others, serving as role models, making special connections with patients and families and helping others thrive.

Today, we honor this special group of nurses for making an impact on the lives of the patients they care for and inspiring everyone around them. We thank you.
