

# One is Not Zero

Everyone at Children's can help create a culture of safety by being accountable, avoiding distractions and improving everything we do. **Even one error is too many.**

## Prevent

**What can you do to prevent patient safety issues?**

- Assess for risk of falls
- Do the 5 Rights
- Identify the patient
- Prevent an event
- Prevent pressure ulcers (skin/wound care)
- Use PEWS

## Protect

**How can you protect patients, families and staff?**

- Do “Time Out”
- FOAM UP
- Follow high-alert process
- Report all concerns
- Speak up and listen up
- Use SBAR

## Partner

**Who should you partner with and why?**

- Address patient pain
- Be a patient advocate
- Call RRT
- Do the TOC process
- Involve the family
- Touch, look and call on IVs
