## Introducing smilegram

smilegram is a new way for you to send a personalized message to your child or another patient at Children's. It's a quick, easy and fun way to let them know you're thinking about them.

### Children's Camps

At Children's, we understand that every child needs to feel special. That's why we collaborate with organizations like [Camp Twin Lakes](#) to offer children and their families the experience of camp—to have fun, meet others with similar conditions and build confidence.

Thank you to all of our [sponsors](#) who make these camps possible.
