Laugh, play, grow and explore at Camp Carpe Diem

A summer camp for children with epilepsy and other seizure disorders

Sunday, May 26 to Friday, May 31

At Camp Twin Lakes-Will-A-Way in Winder, Ga.

Every child needs to feel special. A child with epilepsy or a seizure disorder is no different. Children's works with Camp Twin Lakes and the Epilepsy Foundation of Georgia to offer **Camp Carpe Diem**. At Camp Carpe Diem, we promote positive self-esteem with fun and learning. Here, the only requirements are to laugh, play, grow and explore.

Camp Carpe Diem gives children and young adults with epilepsy and seizure disorders the chance to meet others with similar conditions. The kids, ages 7 to 15, are supervised by volunteers and healthcare professionals.

This year's camp is Sunday, May 26, to Friday, May 31, 2013, at Camp Twin Lakes-Will-A-Way in Winder, Ga.
